MAXIMUM POWER
POINT TRACKER **MPPT**

MAXIMUM POWER POINT TRACKER **MKI**

by SOLARIS POWER SYSTEMS

Specifications:

- Max Power Rating: 100 W
- Max Voltage Input Rating: 20 V
- Max Voltage output: 25 V
- Designed for a resistive load.
- Not intended for batteries.

WARNING:

This device is designed for high power applications. Please do not attempt to install or operate unless you are qualified to do so.

MAXIMUM POWER POINT TRACKER **MKI**

by SOLARIS POWER SYSTEMS

Features:

- Increase the power output of your 100 W solar panel!
- Plug & play. Minimal set up necessary!
- Compact. Takes up almost no space at all!
- Durable. Withstands the toughest of weather conditions!
- Mountable. Designed to interface with several mounting configurations!
